Nationally recognised training is facilitated on behalf of Into Training Australia Pty Ltd (RTO Code 7022)

Use high pressure water jetting equipment

Operate a high pressure water jetting system

Operate a drain cleaning system

Operate a vacuum loading system

MSMSS00003 Use high pressure water jetting equipment

(2 Days)

This nationally recognised course is designed for persons who use class B high pressure water jetting equipment. Participants will develop their knowledge and skills required to use high pressure water jetting equipment under the supervision of a competent operator within the water jetting team. The session is delivered and assessed through both classroom and practical activities.

This course meets the requirements of AS/NZS 4233.1: 2013 High pressure water jetting systems - Safe operation and maintenance, or its authorised replacement and Safe Work Australia Guide for Managing Risks from High Pressure Water Jetting (December 2013), its State/Territory equivalent (where one exists) or the authorised replacement.

Entry Requirements

There are no entry requirements for this course.

Certification

Upon successful completion of this course, participants will be issued by Into Training Australia (RTO Code 7022) a nationally recognised skill set in:

MSMSS00003 – Use high pressure water jetting equipment

- MSMWJ201 **Use high pressure water jetting equipment**
- MSMWHS110 **Follow emergency response procedures**
- MSMWHS200 **Work safely**
- MSMPER200 **Work in accordance with an issued permit**

Training of this skill set is delivered by Hammelmann Australia on behalf of Into Training Australia (RTO Code 7022).

MSMSS00004 Operate a high pressure water jetting system

(2 days)

This nationally recognised course is designed for persons who operate class B high pressure water jetting equipment and are expected to lead the work team. It includes the technical competence to operate high pressure water jetting systems in a safe manner and guide assistant operator/s within a high pressure water jetting team. The session is delivered and assessed through both classroom and practical activities.

This course meets the requirements of AS/NZS 4233.1: 2013 High pressure water jetting systems - Safe operation and maintenance, or its authorised replacement and Safe Work Australia Guide for Managing Risks from High Pressure Water Jetting (December 2013), its State/Territory equivalent (where one exists) or the authorised replacement.

Entry Requirements

- 6 months of high pressure water jetting experience; and
- A minimum of 120 logged hours of water jetting time.

Please Note: A Third Party Report is required to be completed by the student and supervisor to demonstrate evidence of the entry requirements.

Certification

Upon successful completion of this course, participants will be issued by Into Training Australia (RTO Code 7022) a nationally recognised skill set in:

MSMSS00004 - Operate a high pressure water jetting system

- MEM09002B **Interpret technical drawing**
- MSMPER200 **Work in accordance with an issued permit**
- MSMWHS110 **Follow emergency response procedures**
- MSMWHS200 **Work safely**
- MSMWJ301 **Operate a high pressure water jetting system**

Training of this skill set is delivered by Hammelmann Australia on behalf of Into Training Australia (RTO Code 7022).

MSMSS00005 Operate a drain cleaning system

(2 days)

This nationally recognised course is designed for persons who operate drain cleaning equipment. Participants will develop their knowledge to operate a drain cleaning system which may be used to clean, unblock or remove debris from a closed drain (pipe) or open channel drainage system. It includes the skills to operate drain cleaning equipment independently in a safe manner and guide assistant operator/s within the drain cleaning team. The session is delivered and assessed through both classroom and practical activities.

This course meets the requirements of AS/NZS 4233.1: 2013 High pressure water jetting systems - Safe operation and maintenance, or its authorised replacement and Safe Work Australia Guide for Managing Risks from High Pressure Water Jetting (December 2013), its State/Territory equivalent (where one exists) or the authorised replacement.

Entry Requirements

There are no entry requirements for this course.

Certification

Upon successful completion of this course, participants will be issued by Into Training Australia (RTO Code 7022) a nationally recognised skill set in:

MSMSS00005 - Operate a drain cleaning system

- MEM09002B **Interpret technical drawing**
- MSMPER200 **Work in accordance with an issued permit**
- MSMWHS110 **Follow emergency response procedures**
- MSMWHS200 **Work safely**
- MSMWJ302 **Operate a drain cleaning system**

Training of this skill set is delivered by Hammelmann Australia on behalf of Into Training Australia (RTO Code 7022).

MSMSS00006 Operate a vacuum loading system

(2 days)

This nationally recognised course is designed for persons who operate vacuum loading equipment. Participants will develop their knowledge to operate a vacuum loading system which may be used to transfer materials including solids, liquids, sludges and gases into a vessel via vacuum or airflow. The materials can then be transported to disposal and/or storage locations. It includes the skills to operate vacuum loading equipment independently in a safe manner and guide assistant operator/s within the vacuum loading team. The session is delivered and assessed through both classroom and practical activities.

Entry Requirements

There are no entry requirements for this course.

Certification

Upon successful completion of this course, participants will be issued by Into Training Australia (RTO Code 7022) a nationally recognised skill set in:

MSMSS00006 - Operate a vacuum loading system

- MSMWJ303 **Operate a vacuum loading system**
- MSMWHS110 **Follow emergency response procedures**
- MSMWHS200 **Work safely**
- MSMPER200 **Work in accordance with an issued permit**

Training of this skill set is delivered by Hammelmann Australia on behalf of Into Training Australia (RTO Code 7022).
